FIRE RISK ASSESSMENT

Introduction

This risk assessment template can be used for small and medium sized businesses, however, the responsible person will need to decide whether it will provide suitable and sufficient detail to comply with the requirements of the Regulatory Reform (Fire Safety) Order 2005.

Cheshire Fire and Rescue Service provide this template in order to assist businesses in improving fire safety at their premises, but emphasise that the person completing it should be competent to do so.

Cheshire Fire and Rescue Service also emphasise that the content of the risk assessment and the identification and addressing of any significant findings are the responsibility of the responsible person.

The use of this risk assessment template is for guidance only and Cheshire Fire and Rescue Service reserve the right to take enforcement action where appropriate, even where the template has been used.

This document suggests information that should be contained in a fire risk assessment record. When completed in accordance with all suggestions it may serve as a record of a fire risk assessment as required by the Regulatory Reform (Fire Safety) Order 2005.

It is important that the person completing this fire risk assessment consults with the relevant fire safety guide for the premises.

These can be found at - <https://www.cheshirefire.gov.uk/business-safety/fire-safety-advice-for-businesses/fire-safety-guides>

The simple recording of information within this document should be in a narrative form and not simply a Yes or No answer to a question.

FIRE RISK ASSESSMENT

1 PREMISES PARTICULARS

Premises name:	Use of Premises:
Address:	Owner/Employer/Person in control of the workplace:
Tel no:	
Date of Risk Assessment:	Date of Review:

Name and relevant details of the person who carried out the Fire Risk Assessment:

2 GENERAL STATEMENT OF POLICY

Statement:

Signed:

Print Name:

Date:

3 MANAGEMENT SYSTEMS

Commentary:

4 GENERAL DESCRIPTION OF PREMISES

Description:

Occupancy:

Times the premises are in use: _____ to _____

The total number of persons employed within the premises at any one time:

The total number of persons who may resort to the premises at any one time:

Size:

Building footprint (metres x metres):

Number of floors:

Number of stairs:

5 FIRE SAFETY SYSTEMS WITHIN THE PREMISES

Fire Warning System: (i.e. automatic fire detection, break-glass system to BS 5839, other)

Emergency Lighting: (i.e. maintained/non-maintained, 1hr/3hr duration to BS 5266)

Other: (i.e. Sprinkler system to LPC rules BS 5306)

7 IDENTIFY FIRE HAZARDS

Sources of Ignition:

Sources of Fuel:

Work Processes:

Structural features that could promote the spread of fire:

8 IDENTIFY PEOPLE AT RISK

Identify and specify the location of people at significant risk in case of fire, indicating why they are at risk and what controls are or need to be in place:
