

## Video – Fire Action Plan 3

Daughter: \*Wake up, I think there's a fire. The smoke alarm's going off! We should tell Mum and Dad\*

Son: \*Okay\*

Katie: This time, the girl checks the door for heat, she can feel that it's hot

Katie: Because the door is hot, the children decide to stay in their room on their own.

Katie: But what should they do next?

Katie: Open the hot door?

Katie: Play on the computer?

Katie: Or, block gaps around the door?

Katie: Yes, you are right!

Katie: They should block all the gaps around the door with clothing and bedding to keep the smoke out.

Jack: The youngest boy has decided to hide under the bed.

Jack: Is he doing the right thing?

Jack: Yes. Hide?

Jack: No. Don't hide?

Jack: You should never hide.

Jack: You can never hide from the smoke, or the fire.

Jack: You will only be hiding from the firefighters.

Jack: By standing at the window, you can be easily seen.

Katie: Now that the window is open, the children can stand in the fresh air and wait calmly until the firefighters arrive.

Katie: They can also shout to let neighbors and passers by know so they can phone for help.

Katie: The children should stay by the window until the firefighters arrive.
