

Transcript – safety tips for festival goers

- Be carbon monoxide aware – never use fuel-burning devices (e.g. disposable barbecues, camping stoves, camping heaters, lanterns and charcoal grills) inside a tent.
- Keep cooking appliances away from tent walls and never cook inside a small tent or near flammable materials or long grass. They can all easily set alight.
- Drink in moderation to ensure you remain alert and aware of your surroundings.
- Remember to drink plenty of water – especially if the weather is hot. Make use of free water points if available.
- Follow the designated routes to get to the event. Road closures may be in place.

Enjoy the festival. Be safe.
