Stay Safe

From Fire

Remember Candle Safety Rules

- Never leave a candle unattended
- Extinguish all candles when leaving a room or before going to sleep
- Extinguish a candle if the flame becomes too high
- Trim the wick - this prevents the flame from becoming too large
- Keep lit candles out of reach of children and pets
- Place candles away from curtains and other flammable items
- Keep burning candles away from draughts, open windows and fans
- Do not burn a candle longer than the manufacturer recommends
- Never use a candle as a night light
- Double check that candles are completely out and not smouldering
- Avoid lighting candles when alcohol is being consumed
- Consider using battery-operated candles that give the ambience of the real thing

**EVERY HOME SHOULD
HAVE A SMOKE
DETECTOR!**
