

# Making Cheshire safer

**T**he construction of four new fire stations across Cheshire is well underway as part of ambitious plans to improve emergency response across the county.

The programme, which was the subject of widespread public consultation a few years ago, followed an in depth review of the Service. The total cost is around £16million with all the money coming from Government Grants or the Authority's own reserves.

Alsager Fire Station has already cemented itself as an important part of the community. The community station on Brookhouse Road was the first of the four new fire stations to be built. The new station, which is staffed by a crew of on-call firefighters, is now fully operational, responding to emergency incidents.

February saw the official opening of Penketh Fire Station located off Widnes Road. The station has two fire engines based there. One staffed by wholetime firefighters and the other by the new crew of on-call staff who have been recruited from the local area. In addition to providing an emergency response the station will also have a number of rooms available for use by members of the community.

Powey Lane Fire Station

Powey Lane Fire Station near Mollington has also begun responding to incidents. Unlike the Service's community fire stations this is an 'emergency response hub' housing traditional fire engines and a number of specialist vehicles to tackle specific emergencies across the county. The location near to the motorway network provides these vehicles with ready access to respond to other incidents across the whole of Cheshire.

Penketh Fire Station

Lymm Fire Station, is due to open later this year. It will provide full time cover and training facilities to ensure that firefighters continue to respond effectively to a variety of scenarios. In addition, Safety Central, the area's first purpose-built education and lifeskills facility will deliver educational programmes in an interactive way to ensure visitors to the centre take away important safety information.

## Fire budget 2017-18

The Fire Authority has agreed that a budget of £41.3 million is required to provide a fire and rescue service to the communities of Cheshire East, Cheshire West and Chester, Halton and Warrington areas for 2017-18.

A total of £26.45 million will need to be raised from local Council Tax, which is equivalent to £73.29 for each Band D dwelling. This is a rise of 1.99%, or 2.7p a week for a Band D home.

The budget equates to a cost per resident of just 76p per week.
