

FOI 1792 - Data

As requested please see information below. It is worth noting the following points with regard to the information supplied.

- Our data is arranged in fiscal years, therefore the information provided is in the same format.
- Where you have mentioned 'Firefighters' we have applied that to all Operational employees regardless of rank (i.e. Firefighter, Crew Manager, Watch Manager etc)
- Where Operational Employees have more than one role and are off sick, they will be treated in each of their roles respectively, so a period of absence will be counted as time off in both roles.
- Where sickness spans the fiscal years (i.e. start date in or before March 2020 and end date after March 2020), employees have been counted in each year
